Idowu Adamo

Data Scientist | Machine Learning Engineer

Lagos, Lagos State, Nigeria

Summary

I am a machine learning engineer with a strong foundation in data science and a passion for building intelligent, impactful systems. Transitioning from a data-centric role, I now specialize in designing and deploying generative AI applications, leveraging my expertise in machine learning algorithms, statistical modeling, and computational techniques. My work focuses on creating innovative solutions that solve real-world problems and deliver measurable value.

With deep experience in Generative AI and Large Language Models (LLMs), I excel at developing cutting-edge applications, including intelligent chatbots and custom AI-driven workflows. My projects often integrate diverse data sources to enhance user experiences, automate processes, and unlock new possibilities. Having built end-to-end generative AI systems, I thrive at the intersection of technical innovation and practical implementation.

In addition to my technical expertise, I bring strong skills in Communication, Collaboration, Problem-solving, and Critical Thinking. These strengths enable me to work effectively with cross-functional teams, distill complex concepts into actionable insights, and drive projects from ideation to execution. I'm adept at translating technical findings into clear, compelling narratives for diverse audiences.

Outside of my professional life, I'm an avid reader of biographies, drawing inspiration from the journeys of remarkable individuals. I also enjoy exploring the dynamics of global geopolitics, intrigued by how history, strategy, and technology shape the world.

I'm always eager to connect on innovative AI and machine learning projects that push boundaries and address business challenges.

Reach out to me at idowuadamo2904@gmail.com to discuss potential collaborations or ideas.

Experience

Tech Faculty NG

AI and ML Instructor
February 2026 - Present (8 months)
Nigeria

CogniX
Machine Learning Engineer
December 2024 - September 2025 (10 months)
Kenya

Fiverr
Data Scientist
December 2023 - December 2024 (1 year 1 month)
Lagos State, Nigeria

TechnoHacks EduTech Official
Data Science Intern
October 2023 - November 2023 (2 months)
Nashik, Maharashtra, India

Education

University of Lagos
· (2021 - 2025)

AltSchool Africa
Diploma, Data Science · (December 2022 - December 2023)
